The reason for asking is that the official Rover workshop manual from the early 90s is quite specific about the gearbox oil. The following are specified for refill or top-up: Esso BV 75w/80w, Shell SF5288 75w/85w, Total BV 75w/85w and Unipart BV 75w/85w.

Gearbox Oil - Rover 200 & 400 Owners Club Forum

I have a 45, 1.8 2001 manual gearbox. I want to change the gearbox oil, but uncertain where the fill/check and drain pugs are. In the Haynes Manual it says there is an R65 or PG1 type transmission. I think the drain plug is located on the bottom side of gearbox with what looks like a 10mm...

45 Manual Gearbox Oil Change | MG-Rover.org Forums

Castrol also recommends that Castrol VMX 80 be used in the main gearbox (R380). That is why Land Rover uses VMX in the main gearbox. The ideal lubricant for the R380 is undoubtedly Texaco MTF 94. It is marketed in the RSA as Caltex MTF 94. Land Rover has done extensive research on this oil and it is the best.

I was contemplating gearbox, transfer, diff and overdrive oils. Will the use of a thicker/heavier grade of oil, if such a thing exists, or alternatively oil additives that thicken your oil, make the drivetrain better and quieter? The old trick of thickening the oil with sawdust to quieten a noisy transmission springs to mind.

Will thicker oils make for a quieter gearbox/drivetrain?

The 3 Speed GM180 Automatic Transmission and the 5 Speed LT77 Manual Gearbox were fitted to the automatic and manual versions of the Series II Rover SD1. In both cases they are considered to be very robust units providing routine maintenance guidelines are observed.
